

Whitby Distillery

In 2017, Jess and Luke launched Whitby Distillery from their utility room. Within 9 months, they outgrew the space, and turned to the Growth Hub for support, needing space and resources to develop production.

Growth Hub advisors also helped them to access training and equipment to develop produce and sales for the export market.

Jess says, **“We went through all the different funding options available. It’s been a safety net for us. I’ve always known that I could just pick up the phone and speak to the advisor at the Growth Hub.”**

In the year since they launched, Whitby Gin has picked up five major awards including Best British London Dry Gin at the World Gin Awards.
